

# AKRF Full Line of Capabilities

**A**KRF, INC.—A MULTIDISCIPLINARY CONSULTING FIRM SPECIALIZING in environmental, planning, and engineering services—is considered the consultant of choice to tackle a wide range of complex, controversial and time-sensitive projects for public agencies, private clients, and municipalities. Founded in 1981, we bring together the talents of nearly 200 employees in six locations—New York, New Jersey, Maryland, Connecticut, Hudson Valley and Long Island.

We combine the breadth and resources of larger firms with the specialized know-how and attentiveness offered by smaller ones to complete a wide variety of projects, and deliver sustainable solutions with substantial, measurable value. Our experience and commitment to our clients has made us one of the most respected firms in the field in the Northeast.
